A mammoth 69 entries for Stock Hatch gives us 3 practice sessions, 2 heats and a final on Saturday and 2 heats and a final on Sunday. Selection for who goes where is decided by:-

SATURDAY: From the combined practice sessions the slowest 48 (2 grids-worth) will be split alternately between Heats 1 and 2, the remainder will go straight into the Final. Spaces on the back of that grid will be filled by taking, from the results of the two heats, the 1st, 2nd, 3rd, 4th etc alternately from each race until the spaces are filled.

SUNDAY: From the combined fastest race laps on Saturday the slowest 48 (2 grids-worth) will be split alternately between Heats 1 and 2, the remainder will go straight into the Final. Spaces on the back of that grid will be filled by taking, from the results of the two heats, the 1st, 2nd, 3rd, 4th etc alternately from each race until the spaces are filled.

Demon Tweeks and Yokohama tyres are the main sponsors for the Stock Hatch Championship, which in its 6th year continues to be one of the most popular saloon car championships in the UK. The use of standard engine & gearbox, a 'control' Yokohama A539 tyre and a weight penalty for leading cars ensures close racing at very affordable cost.

Spaces on the back of the grid for Race 9 will be filled by the top finishers in Race 3.

The 750 Motor Club Formula Vee championship is ideal for beginner and 'expert' alike, looking for competitive single seater racing on a low budget. It has been run by the 750 Motor Club since 1980 and is probably the cheapest way to go single seater racing in the UK. Engine, gearbox and much of the suspension and braking system is from the VW 1300 Beetle and this, along with a Dunlop 'control' tyre puts the emphasis on driver ability to win races.

First introduced in 2001, the 750 Motor Club's RGB Championship is for two-seater cars which must be road legal and capable of passing an MOT. Cars may be constructed specifically for the series or may be one of the many motorcycle engine cars currently available from a wide range of kit car manufacturers. The engines must be series-production four-stroke units and may not be modified from standard; they run in four classes; standard Fireblade engine kit cars (class C), up to 135 bhp (class B), 136 to 180 bhp (class A) and rear-engined cars (class D). The Championship is sponsored by MDS Battery Ltd - see their advert on the inside front page for full information.

Demon Tweeks and Yokohama tyres are the main sponsors for this year's Hot Hatch Championship which attracts a wide range of popular hatchback cars of up to 2000cc. Cars are allowed engine and suspension modifications, standard pattern brakes and all must use the Yokohama A032R 'control' tyre. This together with a weight penalty for leading cars ensures close racing without excessive budgets.

The 750 Motor Club Roadsports Championship, sponsored in 2003 by Race Speed, is the most varied and competitive sports car category in the country, attracting cars from five decades, over ten different manufacturers and has in excess of 110 eligible models of sports cars currently listed. With carefully chosen class structures to ensure close competition for everyone, even cars from one-make series will find a place with more interesting competition.

See the inside back page for full information about this year's sponsor, Race Speed.

750 Formula is for lightweight two-seater sports racing cars and was originally introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the budding amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits; alternatively there are often suitable cars available for sale from within the formula.
