The above drivers are in the 1st Stock Hatch practice session.

From the combined 3 practice sessions the slowest 52 will be split alternately between Heats 1 and 2, the remainder will go straight into the Final. Spaces on the back of that grid will be filled by taking, from the results of the two heats, the 1st, 2nd, 3rd, 4th etc from each race until the spaces are filled.

Demon Tweeks and Yokohama tyres are the main sponsors for the Stock Hatch Championship, which in its 6th year continues to be one of the most popular saloon car championships in the UK. The use of standard engine & gearbox, a 'control' Yokohama A539 tyre and a weight penalty for leading cars ensures close racing at very affordable cost.

The 750 Motor Club Roadsports Championship, sponsored in 2003 by Race Speed, is the most varied and competitive sports car category in the country, attracting cars from five decades, over ten different manufacturers and has in excess of 110 eligible models of sports cars currently listed. With carefully chosen class structures to ensure close competition for everyone, even cars from one-make series will find a place with more interesting competition.

See the inside back page for full information about this year's sponsor, Race Speed.

750 Formula is for lightweight two-seater sports racing cars and was originally introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the budding amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits; alternatively there are often suitable cars available for sale from within the formula.

Demon Tweeks and Yokohama tyres are the main sponsors for this year's Hot Hatch Championship which attracts a wide range of popular hatchback cars of up to 2000cc. Cars are allowed engine and suspension modifications, standard pattern brakes and all must use the Yokohama A032R 'control' tyre. This together with a weight penalty for leading cars ensures close racing without excessive budgets.

Marshalling

As an active alternative to competing, you could become one of the hundreds of hardy souls who clad themselves in orange overalls each weekend, to carry out the variety of jobs essential to the safe running of an event. It's a serious undertaking and can get you very close to the action at times.

Course, Incident, Flag, Observer, Pits, Paddock, Assembly, Race Rescue Unit - all these basically come under the umbrella of marshalling. However, you don't just come along and do whatever job you fancy on the day; there is a lot more to it than that. Those with no experience start as Trainees and will be placed with experienced marshals at whatever position they are allocated. Training days are available, ranging from fire-fighting, incident handling, use and knowledge of the many flags through to, after years of experience, becoming Examining Observer or Specialist.

The 750 Motor Club looks after its Marshals, realising only too well that they are all volunteers and it has a Sponsorship Scheme to assist new marshals to buy the necessary kit (overalls, wet weather gear etc) or to help with their replacement; this funding uniquely comes directly from the 750 Motor Club competitors by way of donations to our Marshals Fund.

With its 28 race days, plus Sprints, Trials, the Formula Student event, the Shell Eco-Marathon and the London-to-Brighton run, the 750 Motor Club has lots to offer to both new or experienced Marshals.

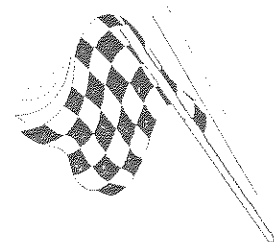

For more information about Marshalling (remembering that Novice drivers can get a licence-upgrading signature for doing just one day's marshalling), please contact the Club's Chief Marshal:-
