Chassis and bodywork materials and the design concept may not be changed. Cars must be capable of passing an MoT test. Engines must be production-car based, with a maximum of 3500cc and a separate class (B) for 1800cc Ford Zetec engines. Multi-valve engines are included within limits; engine tuning is restricted and turbos/superchargers are not permitted. Apart from the prohibition of calipers other than cast iron, braking systems are free, but no ABS. Gearbox and diff must be from a production car. Close ratio gears are permitted, maximum 5-speed plus reverse. No limited slip diff or similar. The control tyre is the Yokohama A032R. Rim width is 6" or 7" depending upon class.

Power outputs will vary between 100bhp in the small class, to getting on for 350+ bhp in the big V8s. Transmission must be a production-car gearbox. Close-ratio gears and LSD are permitted, traction control is not.

# 'Trump Card' 750 Formula Championship

750 Formula is for lightweight two-seater sports racing cars, originally introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the budding amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits; alternatively there are often suitable cars available for sale from within the formula.

There are two engine options, either the highly tuned Reliant 850cc or the unmodified Fiat 'FIRE' 1108cc, the latter introduced in 2003 due to the diminishing supply of spares for the Reliant engine. All cars run on a control Yokohama slick tyre.

## 750 Motor Club Formula Vee Championship

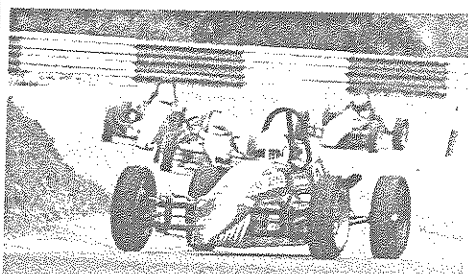

The 750 Motor Club Formula Vee championship is ideal for beginner and 'expert' alike, looking for competitive single seater racing on a low budget.

It has been run by the 750 Motor Club since 1980 and is probably the cheapest way to go single seater racing in the UK.

Engine, gearbox and much of the suspension and braking system is from the VW 1300 Beetle and this, along with a Dunlop 'control' tyre puts the emphasis on driver ability to win races.

### Closed Wheel Allcomers

The Closed Wheel Allcomers is an additional race to the programme, sometimes planned for in the original schedule and sometimes added at the last minute because of space available in the timetable. Virtually any car, with the exception of single seaters, can take part; on most occasions the cars will already be competing in one of the races at the meeting, but others are not excluded. It gives drivers extra track time and provides an interesting cross-section of cars.
