## Demon Tweeks/Yokohama Stock Hatch Championship

Demon Tweeks and Yokohama tyres are the main sponsors for the Stock Hatch Championship, which in its 7<sup>th</sup> year continues to be one of the most popular saloon car championships in the UK. Editorial coverage of the championship is to be provided by Track & Race Car magazine.

Modifications are strictly limited to basic rebore and blueprinting along with the use of standard gearbox; ignition systems are 'free'; suspension mods are limited to lowering and uprating of springs and dampers; brakes remain standard with free pad materials; a 'control' Yokohama A539 tyre and a weight penalty for leading cars ensures close racing at very affordable cost.

# 750 Motor Club Locost Championship

The 750 Motor Club Locost Championship is for cars built to the same basic design and using a standard Ford 1300 cc crossflow engine, gearbox and many other standard components. All cars run with a 'control' camshaft from Kent Cams; modifications are limited to a rebore and basic 'blue-printing'. There is also a 'control' tyre, the Yokohama A539 which, being a road-legal tyre, is suitable for both dry and wet conditions. There is free choice of spring rates and anti-roll bars; dampers must be steel-bodied and single-adjustable. Designed to ensure close racing and encourage new drivers into club racing at sensible cost levels the championship has now expanded to a point where 2 grids are necessary at some meetings.

# 750 Motor Club Formula Vee Championship

The 750 Motor Club Formula Vee championship is ideal for beginner and 'expert' alike, looking for competitive single seater racing on a low budget.

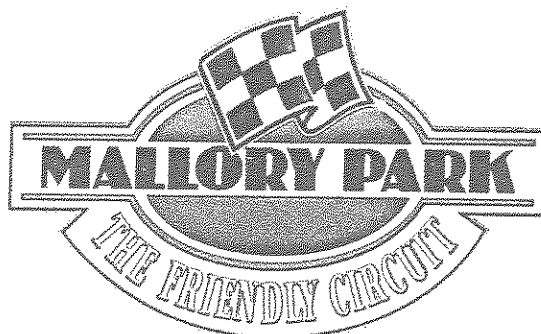

It has been run by the 750 Motor Club since 1980 and is probably the cheapest way to go single seater racing in the UK.

Engine, gearbox and much of the suspension and braking system is from the VW 1300 Beetle and this, along with a Dunlop 'control' tyre puts the emphasis on driver ability to win races.

# Marshalling

As an active alternative to competing, you could become one of the hundreds of hardy souls who clad themselves in orange overalls each weekend, to carry out the variety of jobs essential to the safe running of an event. It's a serious undertaking and can get you very close to the action at times.

Course, Incident, Flag, Observer, Pits, Paddock, Assembly, Race Rescue Unit - all these basically come under the umbrella of marshalling. However, you don't just come along and do whatever job you fancy on the day; there is a lot more to it than that. Those with no experience start as Trainees and will be placed with experienced marshals at whatever position they are allocated. Training days are available, ranging from fire-fighting, incident handling, use and knowledge of the many flags through to, after years of experience, becoming Examining Observer or Specialist.

The 750 Motor Club looks after its Marshals, realising only too well that they are all volunteers and it has a Sponsorship Scheme to assist new marshals to buy the necessary kit (overalls, wet weather gear etc) or to help with their replacement; this funding uniquely comes directly from the 750 Motor Club competitors by way of donations to our Marshals Fund.

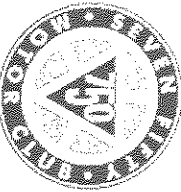

With its 28 race days, plus Sprints, Trials, the Formula Student event, the Shell Eco-Marathon and the London-to-Brighton run, the 750 Motor Club has lots to offer to both new and experienced Marshals.

For more information about Marshalling (remembering that Novice drivers can get a licence-upgrading signature for doing just one day's marshalling), please contact the Club's Chief Marshal:-
