750 Motor Club Roadsports Championship

If it's a sportscar produced in a reasonable volume, it's probably eligible - there is no more varied a Championship for sportscars in the UK and its split into separate classes based generally on engine capacity/car type. Engine must be original fitment, but crank, rods, pistons, camshaft, induction and exhaust are free; head mods are permitted; add-on forced induction is not permitted. Power outputs will vary between 100bhp in the small class, to getting on for 350+bhp in the big V8s. Transmission must be a production-car gearbox. Close-ratio gears and LSD are permitted, traction control is not.

750 Motor Club 750 Formula Championship

750 Formula is for two-seater sports racing cars, introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits. There are two engine options, either the highly tuned Reliant 850cc or the unmodified Fiat 'FIRE' 1108cc, the latter introduced in 2003 due to the diminishing supply of spares for the Reliant engine. All cars run on a control Yokohama slick tyre.
