750 Motor Club Formula Vee Championship

The 750 Motor Club Formula Vee championship is ideal for beginner and 'expert' alike, looking for competitive single seater racing on a low budget. It has been run by the 750 Motor Club since 1980 and is probably the cheapest way to go single seater racing in the UK. Engine, gearbox and much of the suspension and braking system is from the VW 1300 Beetle and this, along with a Dunlop 'control' tyre puts the emphasis on driver ability to win races.

Demon Tweeks/Yokohama Stock Hatch Championship

The Stock Hatch Championship, is in its 8th year & continues to be the most popular championship in the UK. Modifications are strictly limited to basic rebore and blueprinting along with the use of standard gearbox; ignition systems are 'free'; suspension mods are limited to lowering and uprating of springs and dampers; brakes remain standard with free pad materials; a 'control' Yokohama A539 tyre and a weight penalty for leading cars ensures close racing at very affordable cost.

Moose Trophy FF 1600

For more than twenty years, the North West has been a hot bed of Formula Ford, and there was no more staunch supporter than Colin 'Moose' Benn, who is remembered in this special Trophy race.

Stuart Gough was the first winner three years ago, and via UK FFord, FRenault and SCSA he is back today to try to regain his crown. The other two previous winners - Steve Roberts and Peter Dempsey - are both racing in UK Formula Ford this year.

Other possible winners include preparation ace John Loebell, and Tom Bradshaw - the teenage sensation of the NW Pre 1990 championship. Three of the top four from the Post 1989 division are entered too.

750 MC Roadsports & 7s Championships

If it's a sportscar produced in a reasonable volume, it's probably eligible - there is no more varied a Championship for sportscars in the UK and its split into separate classes based generally on engine capacity/car type. Engine must be original fitment, but crank, rods, pistons, camshaft, induction and exhaust are free; head mods are permitted; add-on forced induction is not permitted. Power outputs will vary between 100bhp in the small class, to getting on for 350+bhp in the big V8s. Transmission must be a production-car gearbox. Close-ratio gears and LSD are permitted, traction control is not.
