## Important Live Snatch

Brands Hatch  
21<sup>st</sup> & 22<sup>nd</sup> June

### To All Competitors

Live Snatch will be in operation at this event (similar to what is used at Silverstone and Donington). It is important that all competitors read and understand these notes.

A Manitou snatch vehicle will be located on the outside at Paddock Hill Bend. Should any car end up in the gravel trap at this corner it could be removed during the practice session or race (if the Clerk of the Course considers it safe to do so) without the use of red flags. When this vehicle is deployed, the flag post prior to the incident will display TWO waved yellow flags and the post prior to that TWO stationary yellow flags.

It is essential that if you see these flags that you slow down and do not overtake. If we get any reports of drivers not responding to these flags we will consider it a very serious situation.

This procedure is being put into operation to try and avoid the use of more red flags than is necessary and hence providing you with full distance races wherever possible.

If you have any questions about this, please ask.

Julian Floyd - Clerk of the Course

# See over for amendments

This meeting is held under the General Regulations of the MSA (incorporating the provisions of the International Sporting Code of the FIA) and the Supplementary Regulations, Final Instructions and any written instructions which the Organisers issue for the race meeting. **MSA Permit: 44825.**

# Premier Choice Group 750 Formula Championship

750 Formula is for two-seater sports racing cars, introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits. There are two engine options, either the highly tuned Reliant 850cc or the unmodified Fiat 'FIRE' 1108cc, the latter introduced in 2003 due to the diminishing supply of spares for the Reliant engine. All cars run on a control Yokohama slick tyre.

## Demon Tweaks/Yokohama Stock Hatch Championship

The Stock Hatch Championship, is in its 11<sup>th</sup> year & continues to be the most popular championship in the UK. Modifications are strictly limited to basic rebore and blueprinting along with the use of standard gearbox; ignition systems are 'free'; suspension mods are limited to lowering and uprating of springs and dampers; brakes remain standard with free pad materials; a 'control' Yokohama tyre and a weight penalty for leading cars ensures close racing at very affordable cost.

The 750 Motor Club Toyota MR2 Championship is new for 2008 & is for production based sports cars run as near standard specification as possible allowing for safety requirements. There are separate classes. Class A for the Mk1 and class B for the Mk2. Very few modifications from standard are allowed to keep costs down and maintain its aims as a budget series. All cars run on a control Toyo tyre and there are minimum weights in classes to even out the performance.

## AB Performance RGB Championship

First introduced in 2001, this Championship is for two-seater cars which must be capable of passing an MOT. Cars may be constructed specifically for the series or may be one of the many motorcycle engined cars currently available. The engines must be series-production four-stroke units and may not be modified from standard; they run in three classes; standard Fireblade engined kit cars (class C), up to 145 bhp (class B), 146 to 180 bhp and all rear-engined cars (class A). Control tyre is the Yokohama AO48R.
