Race 1**13 mins + 1 lap****750 Motor Club Allcomers**

Having run a few Allcomers races in the past, the 750 Motor Club is aware that there are many cars which, although fully prepared for racing, have no specific 'home' in which to race - this may be due to the cessation of a championship or series or the fact that the car was not built to any particular specification. The 750 Motor Club Allcomers races embrace these cars, plus those drivers wanting an additional race on the day.

750 Motor Club Formula Vee Championship

The 750 Motor Club Formula Vee Championship is ideal for beginner and 'expert' alike, looking for competitive single seater racing on a low budget. It has been run by the 750 Motor Club since 1980 and is probably the cheapest way to go single seater racing in the UK. Engine, gearbox and much of the suspension and braking system is from the VW 1300 Beetle and this, along with a Dunlop 'control' tyre puts the emphasis on driver ability to win races.

Demon Tweeks/Yokohama Locost Championship

The 750 Motor Club Locost Championship is for cars built to the same basic design and using a standard Ford 1300 cc crossflow engine, gearbox and many other standard components. All cars run with a 'control' camshaft from Kent Cams; modifications are limited to a rebore and basic 'blue-printing'. There is also a 'control' tyre, the Yokohama A539. There is free choice of spring rates and anti-roll bars; dampers must be steel-bodied and single-adjustable.

Races 10 & 21**13 mins + 1 lap****Premier Choice Group 750 Formula Championship**

750 Formula is for two-seater sports racing cars, introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits. There are two engine options, either the highly tuned Reliant 850cc or the unmodified Fiat 'FIRE' 1108cc, the latter introduced in 2003 due to the diminishing supply of spares for the Reliant engine. All cars run on a control Yokohama slick tyre.
