Minimum Penalty: The provisions of MOTORSPORT UK Regulations : C3.3.
2. Arising from post race Scrutineering or Judicial Action: Minimum Penalty: The provisions of MOTORSPORT UK Regulations: C3.5.1 (a) and (b).

For infringements deemed to be of a more serious nature the Clerk of the Course will invoke the provisions of Regulation C3.5.1 (c).

4.2: ADDITIONAL SPECIFIC CHAMPIONSHIP PENALTIES:

1. In the case of a driver being excluded from a race, the Clerk of Course will impose the penalties set out in MOTORSPORT UK Regulation C3.5.1 a & b and may impose the penalty set out in MOTORSPORT UK Regulation C3.5.1 c.
2. In order to maintain standards of conduct, the Championship Organisers will monitor all Officials/Observers reports of adverse behavior at race meetings. Double headers will be considered as two separate rounds; however if the decision to allocate penalty points is delayed such that further round/s of the Championship have taken place since the offence, the grid slot penalty will be implemented at the next round in which they compete after the allocation of the penalty points.
The penalty will mean that a Competitor will be moved back grid slot places from their grid position (e.g. if a Competitor with a three grid slot penalty had a qualifying time that was good enough for pole position then the Competitor will start fourth on the grid). If for any reason the imposition of this grid penalty is impractical (such as the competitors qualifying time, starting from the pit lane etc.) or the offence occurs at the final meeting of the season, a time penalty of 5 seconds will be added to the elapsed time of the Competitor.

5: TECHNICAL REGULATIONS

5.1: INTRODUCTION:

a) The following Technical Regulations are set out in accordance with the MOTORSPORT UK specified format **and it should be clearly understood that if the following texts do not clearly specify what modifications or upgrades can be made to the car, then you must work on the principle that it will not be permitted. The fact that some modifications are mentioned as prohibited does not imply that others are allowed.** If any doubt exists about the legality or acceptability of any modification, then please request clarification from the Championship Organisers prior to any work being undertaken.
Additional references to technical data used within these regulations can be obtained by reference to the publication entitled "Mazda MX-5 Miata 1.6 Enthusiast's Workshop Manual" published by Veloce Publishing ISBN 978-1-84584-083-9 with the exception of Chapter 13. All information contained within Chapter 13, Performance Tuning is EXCLUDED.

Should a disabled licence holder wish to join the Championship and requires the car to be modified to allow this to happen, the organizers reserve the right to amend these regulations to permit

any changes to the vehicle concerned. Such amendments will only apply to the car whilst being operated by a disabled licence holder.

b) STANDARD: The word ‘standard’ used within these technical regulations as a description of components is to be interpreted as per ‘Standard Part’ defined in Section B – Nomenclature & definitions in the MOTORSPORT UK Blue Book. Checking will be by comparison to spare parts supplied by the manufacturer’s official agent or by any other means necessary to ensure compliance.

c) STANDARD PATTERN: The phrase ‘standard pattern’ used within these technical regulations as a description of components is to be interpreted as per ‘Standard Part’ defined in Section B – Nomenclature & definitions in the MOTORSPORT UK Blue Book. Checking will be by comparison to spare parts supplied by the manufacturer’s official agent or by any other means necessary to ensure compliance.

5.2: GENERAL DESCRIPTION:

The **5Club MX5 Cup** is a single make, single class race championship for the Mk 1 1600cc Mazda MX-5 vehicle. The only vehicles permitted are those that were available for sale via the Mazda Dealer network. All vehicles must be of sound construction and mechanical condition and be well maintained. There is no requirement for an MOT Certificate, Road Tax or Insurance. Vehicles must be operated in an “open” condition i.e. without the hard or soft top.

These Technical Regulations are applicable to all competitors competing in the Series. Mazda MX-5 vehicles must remain standard with the exception of the following restrictions or specifically allowed modifications. Unless specifically mentioned or approved in these regulations, no modifications may be made. These regulations are not intended as guidelines or suggestions and they will be vigorously enforced.

Vehicles must comply with MOTORSPORT UK General Technical Regulations contained within Sections C, H, J, K, L & Q of the current MOTORSPORT UK Yearbook. **5Club MX5 Cup** technical regulations are intended to allow competitors to produce race cars that are safe, affordable and of a near identical level of performance, with the emphasis placed firmly on driver ability. Competitors are therefore asked to keep this in mind when building or modifying race cars and are encouraged to seek guidance from the organiser where appropriate. A modification that gives a performance advantage at a high financial cost will almost certainly be illegal, or possibly outlawed in future regulations. As described above, the ethos of the Series does not extend to the building of race engines to the limit of the permitted modifications. Those “permitted modifications”, are “permitted”, in order to prolong the longevity of the engine, head skimming is allowed in order to make a “warped head”, re-usable, “boring the cylinders”, is permitted in order to allow an engine with a worn or scored bore to be re-used, thus keeping costs low and the Championship’s need for spare engines to a minimum. **5Club MX5 Cup is not a development formula.**

Examination of vehicles. The organisers (in addition to any other powers they may have under these regulations) reserve the right before or after any race in the Championship to designate any one or more of the competing cars for special eligibility scrutineering. Competitors must be prepared, with tools and spare parts as necessary, to enable inspection of components, or to have units sealed at the circuit for later inspection by an Eligibility Scrutineer at the Competitor’s expense.

Upon such selection being made the competitor shall immediately place the car under the control of the organisers and be deemed to have permitted all such scrutineering, examination and testing as the organisers may reasonably require. The organisers have the right to:

a) Examine the car at the circuit for such period as they may reasonably require and take fuel samples.

b) Retain the car for detailed examination at premises chosen by the organisers. If the organisers elect to retain the car they shall make it available for collection by the competitor at least seven days

prior to the qualification session for the next race in the Championship unless the car is found to be in breach of these regulations.

c) Seal the car and any of its components in such a manner as they may choose and require the competitor at their own expense to present the car at any other premises chosen by the organisers for detailed examination within a specified period and / or remove the car by transporter at no expense to the competitor to an appointed location. The competitor will be advised in writing of the time, date and location of the subsequent testing or eligibility examination. The overseen stripping of the engine or any required component will be undertaken by the competitor and / or mechanic / technician nominated by the competitor.

d) The scrutineer can at their discretion request the removal of any part for their further inspection and testing. If the scrutineer decides to retain any part for further inspection over a race weekend, a fully eligible replacement part will be provided by the scrutineer at the time of removal, allowing the competitor to continue racing.

e) The colour scheme for any car is free but the car must be presented in a good, clean condition and any damage sustained must be made cosmetically good, to the approval of the Championship before the next event. Failure to do so will be considered non-compliant. Cars must have all decals affixed as per the issued decal sheet. The Championship will deem any cars not carrying all decals to be non-compliant.
