Demon Tweeks/Yokohama Stock Hatch Championship

The Stock Hatch Championship, is in its 11th year & continues to be the most popular championship in the UK. Modifications are strictly limited to basic rebore and blueprinting along with the use of standard gearbox; ignition systems are 'free'; suspension mods are limited to lowering and uprating of springs and dampers; brakes remain standard with free pad materials; a 'control' Yokohama tyre and a weight penalty for leading cars ensures close racing at very affordable cost.

For Sunday's races the same principle applies to races 10 & 14, using the driver's 2nd fastest time from qualifying.

Cambridge Race Cars (formally Cambridge Kit Car Company) was formed in 2003 by Jonathan Wright, who spent many years running Industrial Site Services - an engineering company supplying services to the aircraft and automotive industry. Cambridge Race Cars have built several successful racecars and competed in many motorsport events with the 750 Motor Club, including the SR4 in which Jonathan won the RGB championship in 2006.

750 Motor Club Formula Vee Championship

The 750 Motor Club Formula Vee championship is ideal for beginner and 'expert' alike, looking for competitive single seater racing on a low budget. It has been run by the 750 Motor Club since 1980 and is probably the cheapest way to go single seater racing in the UK. Engine, gearbox and much of the suspension and braking system is from the VW 1300 Beetle and this, along with a Dunlop 'control' tyre puts the emphasis on driver ability to win races.

750 Motor Club Locost Championship

The 750 Motor Club Locost Championship is for cars built to the same basic design and using a standard Ford 1300 cc crossflow engine, gearbox and many other standard components. All cars run with a 'control' camshaft from Kent Cams; modifications are limited to a rebore and basic 'blue-printing'. There is also a 'control' tyre, the Yokohama A539. There is free choice of spring rates and anti-roll bars; dampers must be steel-bodied and single-adjustable.

750 Motor Club Golf GTI Championship

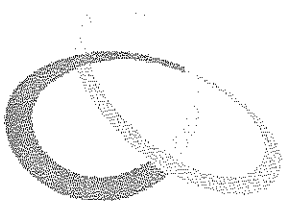

During 2007, the 750 Motor Club ran a series of races for the Mk2 VW Golf GTi as a 'trial' for a future championship. Interest in the series and the number of competitors were sufficient to allow the Club to be granted championship status for 2008, which is an exceptionally short gestation period in racing terms. Both the 8 valve (class 1) and 16 valve (class 2) versions are eligible and run to minimum weights. Tuning is very restricted – a 'control' Newman camshaft, 'control' Toyo tyres, uprated suspension, standard gearbox – and the racing is close.
