All competitors will be directed onto the grid. The marshals will then direct you to the correct qualification grid position. **For races WITH a Green Flag Lap** (see timetable) once all drivers are stationary there will be a two minute countdown; 30 second board and then the cars will be flagged away for the green flag lap. Once this lap has been completed and vehicles are stationary, the 5 second board will be shown, the red lights will be displayed and at some time between 2 and 7 seconds the red lights will switch off – signalling the start of the race. **For races WITH NO Green Flag Lap** after the 30 second board the 5 second board will be shown, the red lights will be displayed and at some time between 2 and 7 seconds the red lights will switch off – signalling the start of the race.

### 13.2 Rolling Start (Club Enduro Only)

Club Enduro cars will be pre-gridded in the Assembly area then released to the grid, there will then be a 1m / 30s countdown followed by the start of the Pace lap behind a Lead Car. Once the Lead Car has returned to the pits the red lights will switch off – signalling the start of the race. Please note that should there be an adverse change of weather conditions from that in qualifying, there will be two laps behind the Lead Car.

Whilst on the Rolling Lap the Lead Car Driver or Observer or a Judge of Fact will assess the grid and if they are not satisfied that the formation is correct, they may elect to do a further Rolling Lap prior to the start to allow drivers to regain their correct positions. If after the Lead Car has pulled into the Pit Lane, the Starter judges that the grid is not in good formation as it approaches the Startline, he may leave the Start Lights at Red. In these circumstances all cars should proceed slowly round the circuit and stop back in position on the grid. The Start procedure will be recommenced at the 1 minute signal. It is the driver's responsibility to insure they are fully aware of the full start procedures in section 2.6 of their Championship Regulations. The race timing will commence from the start of the first start irrespective of whether it is aborted or not.

**The following Championship/Series will use a Rolling Start:**

Club Enduro

### 13.3 Safety Car Intervention (Club Enduro Only)

The Clerk of the Course will have the facility for the use of the safety car in the Club Enduro practices and race. It is the driver's responsibility to make sure they are fully aware of these regulations. The safety car will access and exit the circuit via the pit lane and safety car boards will be shown from the Start line gantry.
