4=	B	Steve NEWWEY	7				

This championship is for more extensively modified, commercially-available, kit cars, with fewer restrictions on engine and suspension modifications, but still requiring MoT and road tyres. Like the Kit Car challenge, this provides an ideal Club Formula for the keen amateur, with about 13 races per season throughout the UK.

The Championship has continued support from Neweys, whose Birmingham-based jewellery centre has for 20 years been offering an extensive range of gold jewellery to the public at wholesale prices.

The 750 Formula is the longest-established formula for sports-racing cars, having been devised by the 750 Motor Club in 1948 around the pre-war Austin 7 which had the 747 cc. side-valve engine. The formula now uses the 850 cc. Reliant engine giving higher performance and greater reliability.

Awards are for 1st, 2nd and 3rd overall, plus end-of-season awards.

Nemesys is a Leicestershire-based software company which supplies bespoke financial and general commercial software with a speciality in the retailing and point-of-sale sectors. The company's products operate on most types of hardware from single terminals to large multi-user environments.

Formula 1300 is for two-seater sports-racing cars, formulated by the 750 Motor Club in 1953, and originally used the Ford 1172 cc side-valve engine. The cars now use either the Ford 1300 crossflow or the 1600 CVH engine, both types with tuning restrictions. The chassis may be either home-constructed or proprietary front-engined (i.e. Mallock) at least two years old. There are about 15 Championship rounds per season.

The Formula enjoys new support this year from **Lola Print Services** of Tadley, who are print finishers specialising in lamination/encapsulation and wire-binding, and are suppliers to instant print shops and commercial printers.

This series is for genuine, commercially-available, kit cars with restrictions on engine-tuning and suspension modifications, and provides an ideal Club racing level for the keen amateur car-builder at reasonable cost. All cars must have MoT certificates, and many are regularly used on the roads. There are about 13 rounds per season at most major UK circuits.

The Challenge is supported this year by Phoenix Sports Cars, Daventry, who are the distributors of the Sylva Phoenix, many examples of which will be racing today.

5=	A	Peter SMITH	17	10	B	Ian TEMPLE	13

Formula 4, which was taken over by the 750 Motor Club in 1970, is for single-seater cars with no restrictions on chassis design; class B permits pre-October 1983 FF2000 cars (or pre-October 1982 Reynard) run to FF2000 regulations. Engines are either Ford Crossflow 1300, 1600 CVH or Hillman Imp. There are about 12 Championship rounds per season, run at circuits throughout the UK..

The Formula enjoys new support this year from Motorsport Engineering Services of Warwick, who specialize in race preparation and maintenance, modifications and conversions, fabrication and repair, and design of components. Cars can be run on a 'one-off' basis and help can be given with testing and development.

97	Richard LEWIS	Scarab Mk2	1300	Shrewsbury	

Lap Record

M.Brown

1:22.9 24/3/91

This race is a non-championship event, being one of a number of individual races scheduled by the 750 Motor Club in 1991, due to the popularity of the Volkspcar Formula Vee Championship. Technical regulations are the same as for the main Championship.

CLOSED WHEEL LIBRE RACE

This final race will comprise drivers of cars all from today's races with the exception of the single-seater, and is non-Championship. To allow for the likely differences in lap times, the 'scratch' results will be adjusted by a time-penalty handicap based upon practice times combined with race times.

Lap = 1.952 miles
