

CHAMPIONSHIP MOTOR RACING

750

MOTOR CLUB

SNETTERTON

24th JULY 1993

OFFICIAL PROGRAMME - £1

SNETTERTON

24th July 1993

This meeting is held under the General Regulations of the RAC Motor Sports Association Ltd. (incorporating the provisions of the International Sporting Code of the FIA) and the Supplementary Regulations, Final Instructions and any written instructions which the Organisers issue for the race meeting.

RAC MSA Permit No: 31575

RAC Steward: R.Harris

Clerks of Course: F.Blann V.Ayres

Deputy Clerk: K.Farquhar

750 Motor Club Stewards: E.Minhinnick R.Moody

Chief Timekeeper: A.Preston

Chief Scrutineer: D.F.D.Smith

Chief Medical Officer: Dr.C.Loveday

Chief Marshal: T.Hiam

Chief Incident Officer: A.Bennett

Eligibility Scrutineer: D.F.D.Smith

Timekeepers: R.Langdale J.Mullarkey N.Pawson W.Underwood
L.Jones L.Nunn R.Adie

Scrutineers: P.Jaggard S.Wright J.Atkinson I.Brocklesby
P.Beaumont H.Turnell C.Baker S.Ford

Emergency Rescue Unit: 750 Motor Club and B.A.R.C.

Marshals: 750 Motor Club, B.M.R.M.C. and friends

Commentators: Mike Duffy Ben Edwards

Secretary of the Meeting: Robin Knight

Particular thanks today go to all the Marshals and other volunteers who have given their time and assistance to make this meeting possible.

TIMETABLE OF RACES

		RACE	Laps

The HOT HATCH CHAMPIONSHIP is new for 1993 and has two main sponsors - MARSHAL TYRES and FAST CAR MAGAZINE. The regulations allow any listed Hatchback car available for sale in the UK three or more years ago, up to a maximum of 1600 ccs, with a class split at 1400ccs. Multi-valved engines up to 1400 ccs go into the 'big' class. Minor engine modifications & suspension tuning is permitted and, apart from safety regulations, are identical to road cars. MoT is required and all cars run on a MARSHAL 767 tyre. Close and entertaining racing is guaranteed from this new 'low cost' formula.

FORMULA 4, the Club's 'slicks and wings' single-seater formula, caters for the amateur designer/constructor in Class A where there are no chassis restrictions and engines are either the Ford 1300 crossflow or the 1600CVH; some cars are converted F3 or FF1600/FF2000 others are highly successful designs by the driver himself. Class B permits pre 1982 FF2000 cars run to those regulations. The combination provides very close racing, demands technical skill in preparation and setting-up and yet is still available within budgets lower than those usually expected for this type of racing.

ROADGOING SPORTSCAR Championship is probably the Club's most popular formula, catering for genuine production sports cars (as approved by the Club). Engine modifications are free within controlled limits, alterations to suspension and braking systems are permitted, tyres must be road legal and all cars must have a current MoT certificate. There are 4 classes:- up to 1330ccs; 1331 to 2500; 2501 and over; and a separate class for all Lotus 7 and Caterham 7 cars. A very wide range of cars always provides entertaining racing.

This is a further round of the 12-round series running over ten months at nine different circuits. For this class there is a limited amount of low-cost tuning allowed, i.e., fast road camshaft, balanced engine, lowered suspension - otherwise almost everything is as year of manufacture. All cars run on Bridgestone tyres. No personal sponsorship is allowed in this class.

This is the fourth season of Halfords overall sponsorship. Familiar as the leading UK car spares and accessories retailer, Halfords consider this sponsorship a good opportunity to assist at the "grass roots" level of motor sports.

The SUPERSPORTS CHAMPIONSHIP once again enjoys support from NEWY'S JEWELLERY CENTRE of BIRMINGHAM and is for more modified kit cars. Rear engined cars are eligible, but cars must still for this year run on road tyres. This year sees some changes to the regulations, with racing gearboxes and multi-valved engines being introduced; next year tyres will be slicks. The engine capacity classes are:- up to 1350ccs 2 valves, up to 1660ccs 2 valves, 1661-2100 2 valves and up to 1450ccs multi-valve, and the 'big' class is 2101 - 4076cc 2 valves and up to 2100ccs multi-valve.

FORMULA 1300 was introduced by the Club in 1954 as being the 'big-brother' to 750 Formula and is for two-seater sports-racing cars. Many cars are home designed and built, others being proprietary front or rear engined cars. Over the years various engines have been used and this season sees the Ford crossflow 1300 and CVH 1600, whilst Sports 2000 and Clubmans B cars are permitted running to their own regulations. The high standard of preparation of these cars is equalled by the competitive yet friendly spirit of the drivers.

FORMULA VEE is a single-seater formula of free chassis design based upon original Volkswagen mechanical components and was first run in the UK in 1967. Once again sponsored by VOLKSPARES, the Volkswagen specialists, the championship is an ideal formula for both the beginner and the more experienced looking for competitive single seater racing on a low budget.

VW parts used include the 1300cc air-cooled engine, the Type 1 gearbox with specific ratios, the front and rear suspension and the braking systems; all these are controlled within the regulations and help to keep running and preparation costs affordable.

The KIT CAR CHAMPIONSHIP, running with the support of DAX (DJ Sportscars) of Harlow and the LASER Motor Company of Epping is for genuine roadgoing kit cars as recognised by the Club. Cars must be front-engined, run on road tyres and have a current MoT. Run in three engine-capacity classes of up to 1350ccs, 1351 to 1660ccs and 1661 to 3528ccs maximum, all engines must be genuine production engines and tuning is quite limited. Many of the cars are also used by their owners on the road and this is an ideal formula for the driver who wants to construct his own vehicle from a proven design.

750 FORMULA is the Club's original racing formula, introduced in 1949 for two-seater sports-racing cars built round the Austin 7 chassis and mechanicals. Virtually all were built and designed by the driver but it was not long before Colin Chapman started building and selling cars for racing in this formula.

In 1966 the regulations changed to permit the more reliable Reliant engine to be used; the engine size is now 850ccs and performance is controlled by a carburettor restrictor. Wings and slicks are permitted and the designs continue to be innovatory and technically advanced.
