The series introduced by the 750 Motor Club this year is principally for cars based on the pre-war Austin 7. Other historic cars of similar performance are also allowed, subject to the approval of the Club. The Austin 7-engined cars include the following types: pre-war sports and racing Austins, post-war specials, and the more advanced early Austin 7-engined 750 Formula cars of the type raced up to the introduction of the Reliant-engined 750 Formula in the mid 1960s. Amongst the other cars currently racing in the Series are 1172 Formula SV Ford-engined cars, Formula 3, 500 cc single seaters and early MG, Riley and HRG cars.

WESPRESS CASTINGS 750 Formula Championship is for two-seater sports racing cars powered by the Reliant 850 cc engine. This formula is aimed at the designer/constructor/driver and the chassis regulations allow considerable freedom. The engine regulations require a standard block, cylinder head and crankshaft to be retained and power output is controlled by the use of a carburettor restrictor plate.

This year the championship receives support from WESPRESS CASTINGS of Willenhall, whose foundry produces a wide range of aluminium castings for both general and automotive use, the latter including castings for Formula Vauxhall Lotus and wheels for Bugatti.

The HOT HATCH CHAMPIONSHIP was started in 1993 and has two main sponsors - MARSHAL TYRES and FAST CAR MAGAZINE. The regulations allow any listed Hatchback car available for sale in the UK three or more years ago, up to a maximum of 1600 ccs, with a class split at 1400ccs. Multi-valved engines up to 1400 ccs go into the 'big' class. Minor engine modifications & suspension tuning is permitted and, apart from safety regulations, are identical to road cars. MoT is required and all cars run on a MARSHAL 767 tyre. Close and entertaining racing is guaranteed from this new 'low cost' formula.

Race Information

RACE 3 – MOSS EUROPE MGCC BCV8 CHAMPIONSHIP

This round of the MG Car Club BCV Championship is sponsored for the second year by the largest manufacturer and supplier of MG spares in the world. The Championship caters for the B, C and V8 models of MG sports cars, and is divided into four classes. Class A is for standard MGBs and MGCs with very little modification allowed, and running on road tyres. Class B is for standard GT V8s and roadgoing MGB and MGC, with greater freedom of tuning, especially to the engine, allowed and running on road tyres. Class C for MGBs and MGCs allows almost unlimited modifications, and use of slick racing tyres; this class represents the ultimate development of both the 4 and 6-cylinder M.G. Finally, Class D is for fully-modified V8-engined versions of the MGB. With the 3.9 litre Rover-based engines producing over 300 bhp, these cars have terrific performance and are spectacular to watch.

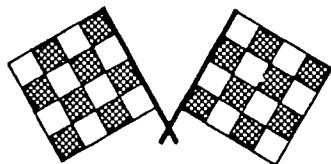

RACE 5 – FORMULA 1300 CHAMPIONSHIP

FORMULA 1300 was introduced by the Club in 1954 as being the 'big-brother' to 750 Formula and is for two-seater sports-racing cars. Many cars are home designed and built, others being proprietary front or rear engined cars. Over the years various engines have been used and this season sees the Ford crossflow 1300 and CVH 1600, whilst Sports 2000 and Clubmans B cars are permitted running to their own regulations.

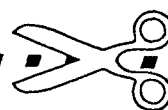

RACE 6 – GOLDSMITH & YOUNG THOROUGHbred SPORTSCAR CHAMPIONSHIP

This popular championship has attracted a quality entry of British sports cars from the fifties and sixties. There are three classes for Standard, Road Modified and Fully Modified cars. Close racing, full grids and friendly competition have been the hallmark of the championship, final championship placings often being decided at the very last round.

Goldsmith & Young Ltd. are specialists in the restoration and preparation of all post-war Aston Martins and other quality classic cars.

ROADGOING SPORTSCAR Championship is probably the Club's most popular formula, catering for genuine production sports cars (as approved by the Club). Engine modifications are free within controlled limits, alterations to suspension and braking systems are permitted, tyres must be road legal and all cars must have a current MoT certificate. There are 4 classes:- up to 1330ccs; 1331 to 2500; 2501 and over; and a separate class for all Lotus 7 and Caterham 7 cars. A very wide range of cars always provides entertaining racing.

86	B	Peter CROFT	Sylva Phoenix	1660	Clitheroe	750

The KIT CAR CHAMPIONSHIP is for genuine roadgoing kit cars as recognised by the Club. Cars must be front-engined, run on road tyres and have a current MoT. Run in three engine-capacity classes of up to 1350ccs, 1351 to 1660ccs and 1661 to 3528ccs maximum, all engines must be genuine production engines and tuning is quite limited. Many of the cars are also used by their owners on the road and this is an ideal formula for the driver who wants to construct his own vehicle from a proven design.
