This is part of a series running through the season at different circuits. For this class there is a limited amount of low-cost tuning allowed, i.e., fast road camshaft, balanced engine, lowered suspension — otherwise almost everything is as year of manufacture. All cars run on Bridgestone tyres. No personal sponsorship is allowed in this class.

This is the fifth season of Halfords overall sponsorship. Familiar as the leading U.K. car spares and accessories retailer, Halfords consider this sponsorship a good opportunity to assist at the "grass roots" level of motor sports.

FORMULA VEE is a single-seater formula of free chassis design based upon original Volkswagen mechanical components and was first run in the UK in 1967. Once again sponsored by VOLKSPARES, the Volkswagen specialists, the championship is an ideal formula for both the beginner and the more experienced looking for competitive single seater racing on a low budget.

VW parts used include the 1300cc air-cooled engine, the Type 1 gearbox with specific ratios, the front and rear suspension and the braking systems; all these are controlled within the regulations and help to keep running and preparation costs affordable.

This popular championship has attracted a quality entry of British sports cars from the fifties and sixties. There are three classes for Standard, Road Modified and Fully Modified cars. Close racing, full grids and friendly competition have been the hallmark of the championship, final championship placings often being decided at the very last round.

Goldsmith & Young Ltd. are specialists in the restoration and preparation of all post-war Aston Martins and other quality classic cars.

The **HOT HATCH CHAMPIONSHIP** was started in 1993 and has two main sponsors - **MARSHAL TYRES** and **FAST CAR MAGAZINE**. The regulations allow any listed Hatchback car available for sale in the UK three or more years ago, up to a maximum of 1600 ccs, with a class split at 1400ccs. Multi-valved engines up to 1400 ccs go into the 'big' class. Minor engine modifications & suspension tuning is permitted and, apart from safety regulations, are identical to road cars. MoT is required and all cars run on a **MARSHAL 767** tyre. Close and entertaining racing is guaranteed from this new 'low cost' formula.

WESPRESS CASTINGS 750 Formula Championship is for two-seater sports racing cars powered by the Reliant 850 cc engine. This formula is aimed at the designer/constructor/driver and the chassis regulations allow considerable freedom. The engine regulations require a standard block, cylinder head and crankshaft to be retained and power output is controlled by the use of a carburettor restrictor plate.

This year the championship receives support from WESPRESS CASTINGS of Willenhall, whose foundry produces a wide range of aluminium castings for both general and automotive use, the latter including castings for Formula Vauxhall Lotus and wheels for Bugatti.

ROADGOING SPORTSCAR Championship is probably the Club's most popular formula, catering for genuine production sports cars (as approved by the Club). Engine modifications are free within controlled limits, alterations to suspension and braking systems are permitted, tyres must be road legal and all cars must have a current MoT certificate. There are 4 classes:- up to 1330ccs; 1331 to 2500; 2501 and over; and a separate class for all Lotus 7 and Caterham 7 cars. A very wide range of cars always provides entertaining racing.

FORMULA 1300 was introduced by the Club in 1954 as being the 'big-brother' to 750 Formula and is for two-seater sports-racing cars. Many cars are home designed and built, others being proprietary front or rear engined cars. Over the years various engines have been used and this season sees the Ford crossflow 1300 and CVH 1600, whilst Sports 2000 and Clubmans B cars are permitted running to their own regulations.

The SUPERSPORTS CHAMPIONSHIP once again enjoys support from NEWEYS JEWELLERY CENTRE of BIRMINGHAM and is for more modified kit cars. Front- or rear-engined cars are eligible, with racing gearboxes, multi-valved engines and slick tyres. The engine capacity classes are:- up to 1350ccs 2 valves, up to 1660ccs 2 valves, 1661-2100 2 valves and up to 1450ccs multi-valve, and the 'big' class is 2101 - 4076cc 2 valves and up to 2100ccs multi-valve.

60	B	John WORSTER	Sylva Phoenix	1650	Tunbridge Wells	750
71	A	Roy LLOYD	Vindicator Sprint	2100	Brierley Hill	750

The KIT CAR CHAMPIONSHIP is for genuine roadgoing kit cars as recognised by the Club. Cars must be front-engined, run on road tyres and have a current MoT. Run in three engine-capacity classes of up to 1350ccs, 1351 to 1660ccs and 1661 to 3528ccs maximum, all engines must be genuine production engines and tuning is quite limited. Many of the cars are also used by their owners on the road and this is an ideal formula for the driver who wants to construct his own vehicle from a proven design.
